SUMMARY

Software Engineer and **2x Gold Medallist** with expertise in building scalable **MERN stack** applications and a strong interest in **DevOps practices**. Passionate about delivering user-focused solutions and optimizing development workflows through collaborative projects and hackathons.

WORK EXPERIENCE

Software Engineer

Lepdo Group of Companies

Surat, India

May 2025 – Jun 2025

- Tech Stack: **React, Node.js, Express.js, MongoDB**, Liquid, Shopify, PayPal API, REST API.
- Built a **Quotation Management System** using the **MERN stack**, automating order processing and reducing manual handling time by **95%**.
- Engineered a custom full-stack **Shopify web application** with real-time gold rate integration, dynamic pricing, and **PayPal payment** support, enhancing user experience and sales automation.
- Implemented a **client-managed delivery system**, reducing reliance on third-party logistics by **60%**.

Software Developer Intern

Persperence Envision

London, UK

Jan 2025 – May 2025

- Tech Stack: **React, TailwindCSS, Node.js, Express.js, MongoDB**, RESTful API, Git, GitHub.
- Automated **Google Alerts data retrieval** using **Python**, increasing processing efficiency by **50%** and saving 10+ hours per week.
- Designed a scalable **backend system** handling **100+ API calls per minute** with **99.9% uptime**, improving system performance.
- Collaborated with a cross-functional team to optimize **RESTful APIs**, improving response times by **25%**.

PROJECTS

IGNITER - Crowd Investing using Blockchain

Blockchain Web App

[GitHub](#)

Nov 2023 – May 2024

- Tech Stack: **Vite, Solidity, ThirdWeb**, Goerli Testnet (Network).
- Developed a **decentralized funding platform** enabling secure **Ethereum-based transactions** via MetaMask.
- Deployed optimized **smart contracts** on the Goerli testnet, reducing transaction processing time by **20%**.

EDUCATION

Parul University

B.Tech, Computer Science & Engineering | CGPA: 9.27/10.0

Vadodara, India

Jul 2024 – May 2027

Bhagwan Mahavir University

Diploma, Computer Engineering | CGPA: 9.39/10.0 | Gold Medallist

Surat, India

May 2021 – May 2024

TECHNICAL SKILLS

Programming Languages: C, C++, Python, Java, JavaScript, PHP, Dart, Solidity.

Web Technologies: HTML/CSS, Tailwind CSS, Bootstrap, Vite.js, React.js, Node.js, Express.js, Django, Flask, RESTful API.

Databases: MySQL, MongoDB (Mongoose, MongoDB Atlas).

Others: Git/GitHub, Visual Studio Code, Android Studio, Postman, XAMPP, PhpMyAdmin.

Concepts & Skills: Data Structures and Algorithms, Basic System Design, Analytical Problem-Solving, AI/ML Exposure, Object-Oriented Programming.

ACHIEVEMENTS

Gold Medallist: Awarded the Academic Excellence Award in Diploma in Computer Engineering for outstanding academic performance and dedication.

Gold Medallist at AAYAM: Achieved 1st Rank at AAYAM, a prestigious National Level TechFest.
